

Animals including Humans

KS1

Science Strand

Biology

What I should already know

- Say some animals names.
- Name some human body parts.
- Name some animal body parts.
- Know there are 5 main animal groups.
- Know animals eat different things; some animals eat plants, some animals eat meat and some eat both.
- Humans have 5 senses.

What I will know by the end of this unit

- **Animals** and **humans** have **offspring** which will grow into an **adult**.
- Young animals have a different name to their parents.
- Animals and humans need **food**, **water**, **shelter** and **warmth** to **survive**.
- Animals and humans need to do **exercise** often to keep themselves **healthy**.
- Animals and humans need to eat the right type and the right amount of food to stay healthy. This is called a **diet**.
- It is important that humans clean themselves. Having good **hygiene** will keep them safe and healthy.
- It is important animals are looked after so that they stay healthy too.

What I will be able to do by the end of this unit

- **Ask questions** about animals and humans.
- **Compare** offspring to their parents.
- **Make careful observations**.
- **Take accurate measurements**.
- **Record** what I have found out using simple tables and graphs. findings in different ways.
- **Explain** what animals need to survive.
